Maintaining high ethical, environmental and sustainability standards

Twenty-five years of online market leadership, growth and innovation

1. Cumulative as at 30 April 2024. All-time for Moonpig and from 1 September 2018 (post acquisition) for Greetz and in the case of gifts from 13 July 2022 (post acquisition) for Experiences. 2. Australia and US relaunched to focus on domestic market versus solely expatriate UK demand.

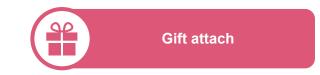

Overview -Moonpig and Greetz

Our card-first businesses leverage data to drive loyalty and gift upsell

~

- ✓ Secular shift to online, with UK online penetration at 15%¹
- ✓ Moonpig and Greetz have distinct and increasing market leadership positions, supporting profitable customer acquisition
- ✓ High frequency, recurring purchase occasions
- ✔ Loyal customers with 89% of revenue from existing customers³

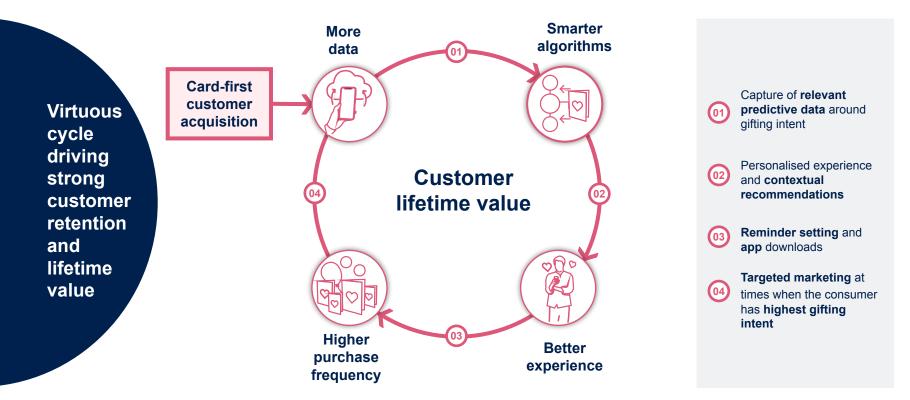

The most relevant gifting platform with minimal acquisition cost

- ✓ 63% of cards given with a gift^{1,2}
- Card-first journey enables relevant gift recommendations
- ✓ Purchase intent high post card creation
- ✓ Zero marketing costs, supporting high margins
- ✔ Sidesteps expensive online competition for gifts/flowers

1. OC&C market research, October 2024. 2. UK single card purchases in 2023 where a gift was purchased either in the same place as a card or a separate retailer to a card, as percentage of total in 2023. The 63% figure includes 5% of occasions where cash is given as a gift. 3. Moonpig and Greetz, FY24. Based on customers who were existing active customers at the start of the financial year.

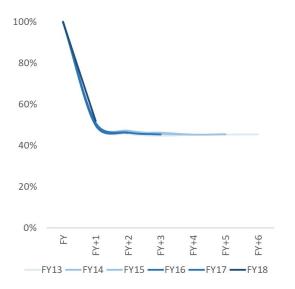

Our model is underpinned by a data-driven growth flywheel

We have resilient, sticky cohorts that have been uplifted post Covid

Very consistent cohort behaviour pre-Covid

Frequency

We have three compounding revenue growth levers and a long runway of growth in our existing core markets

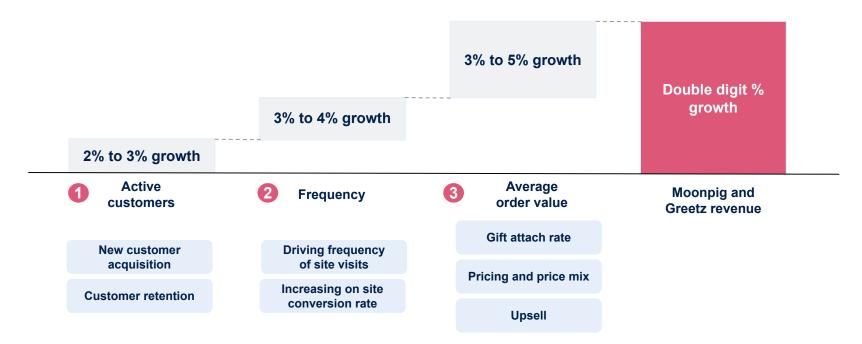

1. UK single card purchases in 2023 where a gift was purchased either in the same place as a card or a separate retailer to a card, as percentage of total in 2023. 63% includes 5% of occasions where cash is given as a gift. 2. Blended average total number of cards purchased by Moonpig customers in the UK and card customers in NL, weighted by individual entity's active customer numbers, for UK and NL only. 3. Core markets of the UK and NL, based on OC&C estimates, October 2024. 4. Moonpig and Greetz, FY24.

Impact of reminders²

We continue to expand our database of customer occasion reminders

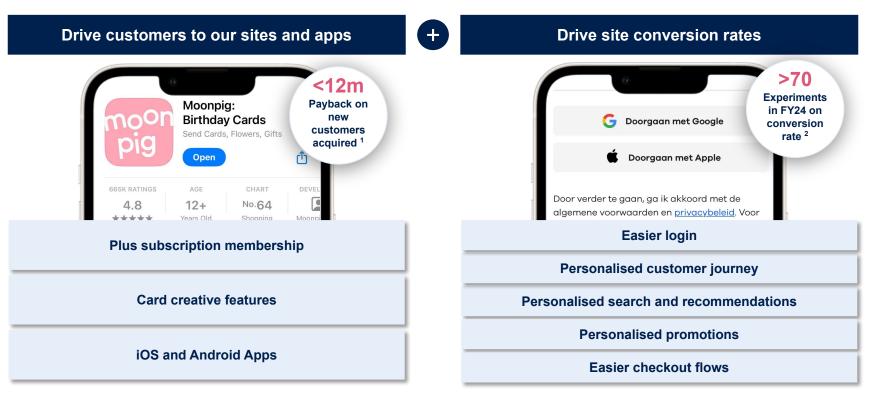

Reminders - Moonpig and Greetz¹ Number of reminders set (m)

- 88% of cards sales are linked to a calendar date⁴, creating a compelling opportunity for retention through reminders
- Reminders provide competitive advantage by enabling communication with customers at moments of high purchase intent
- Our relative scale means that we collect more new reminders than our competitors each day
- Enhanced personalisation across the reminder journey drives clickthrough and onsite conversion rate
- Reminders play a pivotal role in encouraging customers to place orders earlier, reducing the potential for postal service delays

Overview -Experiences Division

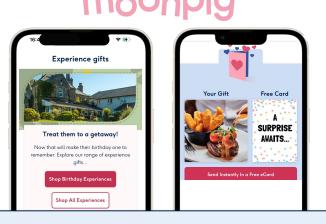

buyagift RED LETTER DATS

We acquired Red Letter Days and Buyagift in 2022 with two distinct pillars to our vision of becoming the leading Digital Gifting Platform

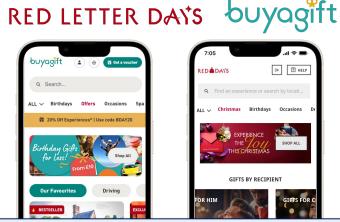

A full transformation of our Experiences Division

Digital gifting synergies unlocked through the Moonpig platform

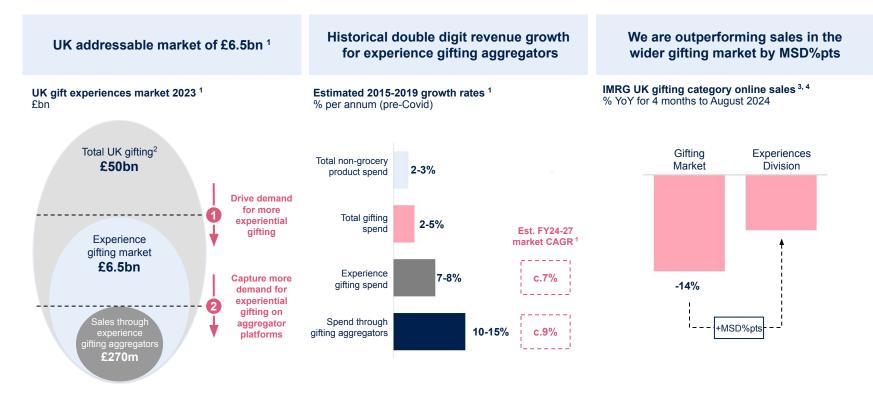

In FY24 we launched a digital gifting capability at Moonpig (gift-in-a-card), which gives us a platform to start scaling gift attach sales of gift experiences, and also to explore new digital gifting categories such as subscriptions and gift cards.

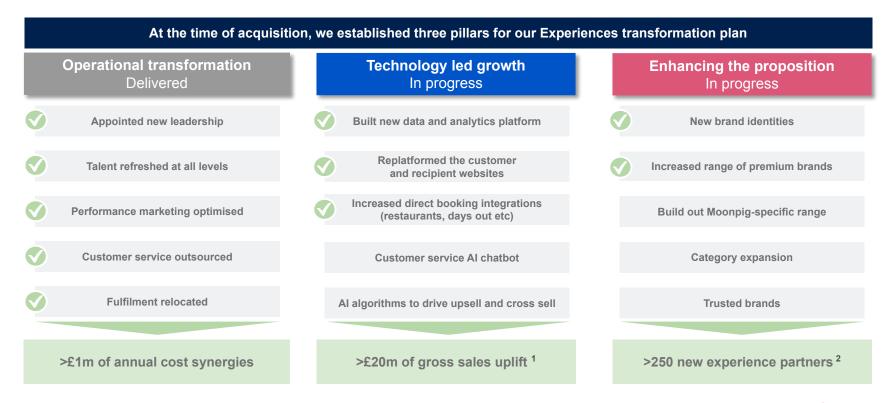

We are two years into a full transformation of the business, with a complete technology replatforming, brand repositioning, and range evolution designed to unlock double digit growth within the large and expanding TAM.

Substantial long-term growth opportunity for our Experiences brands, despite cyclical headwinds

1. OC&C market research, October 2024. 2. Total UK gifting market of £50bn comprises £40bn purchased gifts and £10bn cash gifting. 3. UK gifting market decrease YoY of -14.1% is based on IMRG sales data for the period 28 April - 31 August 2024. 4. Experiences -8% YoY figure is based on gross sales for the 4 months ended 31 August 2024 (excluding mid-single-digit million one-off upside in FY24 from temporarily higher breakage on gift boxes and vouchers sold during Covid with extended expiry dates).

Our transformation of Experiences is driving outperformance of current market trends and positioning us for improved consumer demand

1. £20m of cumulative incremental annual value delivered through improvements to customer and recipient websites post acquisition in July 2022, measured through A/B testing. 2. Since acquisition in July 2022. 30

We expect strategy execution at Experiences to drive double digit medium-term revenue growth once cyclical headwinds subside

Experiences - drivers of medium term target for double digit revenue growth

Overview - new markets

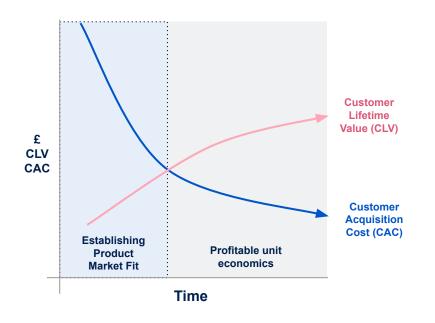

We are leveraging our core platform to build medium term growth opportunities in new markets, with low capital investment

1. Ireland fully launched in 2022, Australia and US relaunched to focus on domestic market versus solely expatriate UK demand. 2. Total addressable market for corporate gifting to employees and clients in the UK of £35bn is a management estimate. It is based on third party estimates for the US corporate gifting market, scaled by relative population to the UK and applying a 20% discount.

Our strategy in all new markets is to focus on reaching profitable unit economics, to create a clear path for profitable growth

Our strategy is focused on achieving sustainable customer acquisition cost (CAC), driving profitable unit economics

This gives us a path to profitable growth with low upfront capital investment

Improving CLV		Reducing CAC	
 Growing customer frequency Growing customer retention Increasing AOV 		 Rapidly testing new go-to-market strategies and channels Building long term brand awareness Optimising marketing campaigns Building organic word-of-mouth promotion

We have a clear path to double digit medium-term revenue growth

- Expected medium-term revenue growth driven through both new customer acquisition and monetising the existing base of active customers
- In future, our routine financial disclosure set will include:
 - Active customers
 - Frequency (i.e. orders per active customer)
- This is addition to existing disclosure of orders and average order value

Moonpig and Greetz have a growing base of 11.5m active customers¹

Experiences is positioned to return to double-digit revenue growth as gifting market headwinds moderate

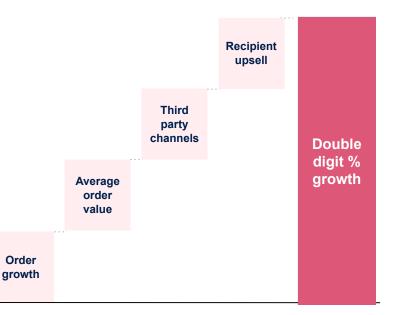

We are executing against our transformation plan

Strategy execution continues with a **continued focus on driving growth through technology development and strengthening the product range**

Technology improvements to the customer and recipient websites delivered £20m of cumulative additional gross sales in 2023 and 2024¹

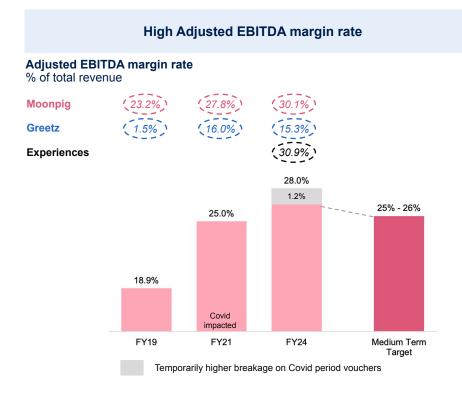

Experiences division revenue has **outperformed the market by** MSD%pts compared to the wider market, which is down -14%¹ in the YTD

We remain confident in medium-term growth and in the strategic opportunity, albeit with more subdued but resilient near-term trading Expected return to double digit revenue growth in the medium term

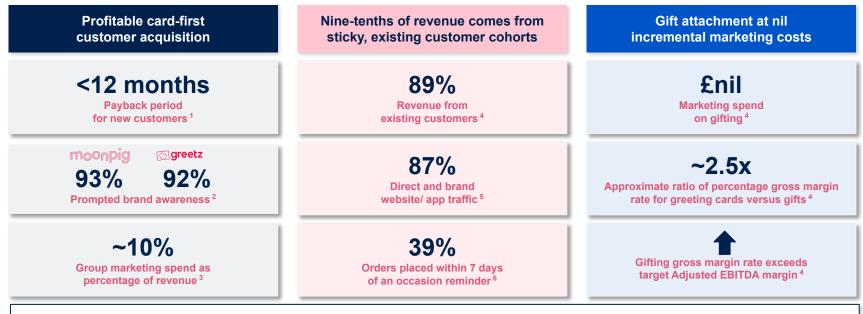

1. £20m of incremental annual value delivered through improvements to customer and recipient websites post acquisition in July 2022, measured through A/B testing. 2. Experiences -8% YOY figure is based on gross sales for the 4 months ended 31 August 2024. Stated after adjusting for mid-single-digit million upside in FY24 from temporarily higher breakage on gift boxes and vouchers sold during Covid with extended expiry dates have now passed, this benefit is not expected to recur in future years. 3. Our business delivers structurally high profit margins ...

- All of our strategic growth drivers are margin accretive and will deliver operating leverage
- Growth in gift attachment is not dilutive to Adjusted EBITDA margin rate, taking into account nil incremental marketing costs and limited variable opex
- Our indirect cost base is largely fixed in nature
- Lower Greetz Adjusted EBITDA margin rate reflects relative scale and operating leverage
- Our constant medium-term target for Adjusted EBITDA margin of 25% - 26% reflects the fact that we intend to reinvest the excess profit that would otherwise accrue

... which are underpinned by the platform characteristics of our model

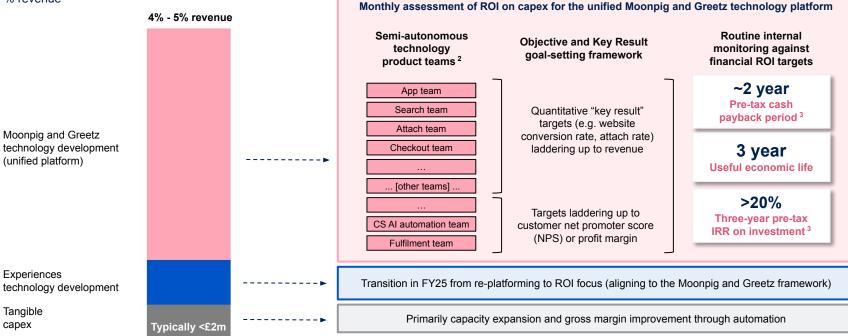

Lean process design; automation; mixed in-house and outsourced operational model

Business-wide scalable technology platform which drives operational leverage

1. Moonpig UK, FY24. 2. Essence Mediacom brand tracking, March 2024 (Moonpig) and April 2024 (Greetz). 3. Group, FY24. 4. Moonpig and Greetz, FY24. Technology investments are managed within a clear ROI framework ...

Capital expenditure guidance ¹ % revenue

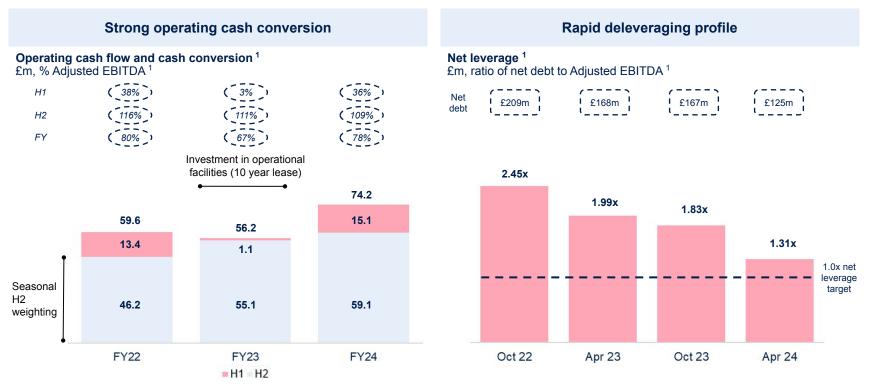

1. Capital expenditure excludes right-of-use assets recognised under IFRS 16. 2. Product teams consist of small, specialised groups that include product managers, data expents, designers and software engineers. They are responsible for building, testing and improving components of the Group's technology platform. The product team structure has evolved over time in response to changes in business priorities moonpig group plc and anticipated ROI outcomes. 3. Cash payback period and three-year IRR calculated before taxation.

We have negative working capital with low inventory ...

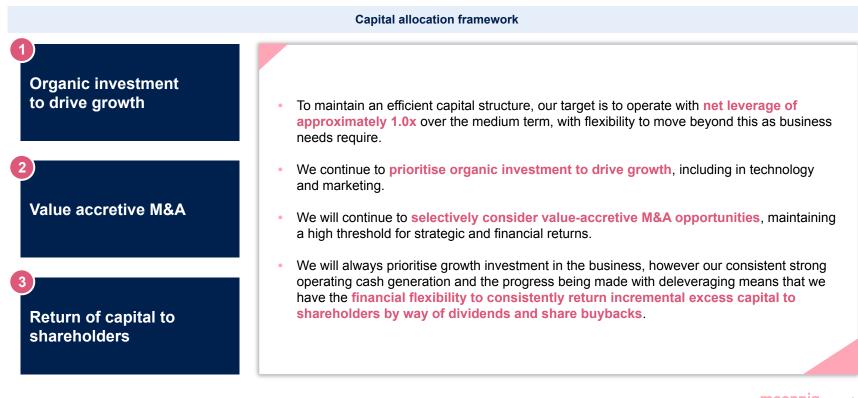

... resulting in high, consistent and growing operating cash flow

1. Adjusted EBITDA, Operating cash flow, Adjusted Operating Cash Conversion, Free Cash Flow, net debt and net leverage are Alternative Performance Measures. Adjusted Operating Cash Conversion is operating cash flow divided by Adjusted EBITDA, expressed as a ratio. Free cash flow represents the cash generated after accounting for cash outflows to support operations and maintain capital assets. Net leverage is the ratio of net debt to last twelve months Adjusted EBITDA. Net debt is stated on an IFRS 16 basis and includes lease liabilities. 2. The Group offers share based payment ("SBP") incentives to eligible senior employees as part of their remuneration package. These SBP are accounted for in line with IFRS 2 and therefore create a non-cash charge within the Group's income statement as these SBP are settled in equity.
